Patient Informed Consent

INFO FOR PATIENT: Collaborative drug therapy management is a team approach to help patients age 18 and up use medicine in a safe and effective way to control long term medical problems. Our program also helps patients control their blood sugars and prevent illnesses through getting vaccines. Once referred to the program by your primary care physician, you will meet with the pharmacist to learn more, provide consent, and develop a treatment plan. You will follow up as needed to monitor your progress and make adjustments to the plan.

Benefits: The pharmacist will review your medical history and make an individualized treatment plan. Pharmacists are experts in dispensing medication and monitoring patients to ensure medications are safe and effective.

Costs/risks: You will need to be available to actively participate in providing history, developing a plan, following the plan, and returning for monitoring with the pharmacist and your PCP.

1. I understand that, as a patient at Family Health, I am required to be at all clinic appointments
2. I am able to travel to the clinic for my appointments or be reached by phone.
3. I will make personal goals regarding my care, and actively participate in creating and following the plan of care. I will ask questions when I don't understand something.
4. I am willing to follow instructions with my medications, proper diet, and the drugs
5. I am taking (prescription, over-the-counter and herbal/vitamin products) and will call the clinic if anything changes.
6. I have access to a telephone and can be reached by telephone if necessary.
7. I agree to have the clinical pharmacist participate in the management of my disease state(s), and may leave the program at any time.
8. I agree to provide another person's information, whom I authorize Family Health Services to contact and give information to regarding my medication therapy.
9. I know that I can stop participating in the program at any time by telling my primary care physician or pharmacist.

INFORMED CONSENT FOR TELEHEALTH

This Informed Consent for Telehealth contains important information focusing on providing healthcare services using the phone or the Internet. Please read this carefully and let me know if you have any questions.

Benefits and Risks of Telehealth

Telehealth refers to providing remote services using telecommunications technologies, such as video conferencing or telephone within Family Health's scope of services such as medical, dental, and behavioral health. One of the benefits of telehealth is that the patient and clinician can engage in services without being in the same physical location. This can be helpful particularly during the Coronavirus (COVID-19) pandemic in ensuring continuity of care as the patient and clinician likely are in different locations or are otherwise unable to continue to meet in person. It is also more convenient and takes less time. Telehealth, however, requires technical competence on both our parts to be helpful. Although there are benefits of telehealth, there are some differences between in-person treatment and telehealth, as well as some risks. For example:

- Risks to confidentiality. As telehealth sessions take place outside of Family Health Services, there is potential for other people to overhear sessions if you are not in a private place during the session. On my end, I will take reasonable steps to ensure your privacy. It is important; however, for you to make sure you find a private place for our session where you will not be interrupted. It is also important for you to protect the privacy of our session on your cell phone or other device. You should participate in therapy only while in a room or area where other people are not present and cannot overhear the conversation.
- Issues related to technology. There are many ways that technology issues might impact telehealth. For example, technology may stop working during a session, other people might be able to get access to our private conversation, or stored data could be accessed by unauthorized people or companies.
- Medical emergency/ Crisis management and intervention. Usually, I will not engage in telehealth with clients who are currently in a crisis situation requiring high levels of support and intervention.

Electronic Communications

You may have to have certain computer or cell phone systems to use telehealth services. You are solely responsible for any cost to you to obtain any necessary equipment, accessories, or software to take part in telehealth.

Treatment is most effective when clinical discussions occur at your regularly scheduled appointments. But if an urgent issue arises, you should feel free to attempt to reach me by calling the office or the after-hours provider on call. If you are unable to reach me and feel that you cannot wait for me to return your call, and if you need immediate attention, go to the nearest emergency room or call 911.

Confidentiality

I have a legal and ethical responsibility to make my best efforts to protect all communications that are a part of telehealth services. The nature of electronic communications technologies, however, is such that I cannot guarantee that our communications will be kept confidential or that other people may not gain access to our communications. I will try to use updated encryption methods, firewalls, and back-up systems to help keep your information private, but there is a risk that our electronic communications may be compromised, unsecured, or accessed by others. You should also take reasonable steps to ensure the security of our communications (for example, only using secure networks for telehealth sessions and having passwords to protect the device you use for telehealth).

The extent of confidentiality and the exceptions to confidentiality that I outlined in my Notice of Privacy Practices still apply in telehealth. Please let me know if you have any questions about exceptions to confidentiality.

Appropriateness of Telehealth

I will let you know if I decide that telehealth is no longer the most appropriate form of treatment for you. If you decide telehealth is not optimal for you, it is important to let me know. We will discuss options for other types of appointments.

Emergencies and Technology

Assessing and evaluating threats and other emergencies can be more difficult when conducting telehealth than in traditional in-person treatment. To address some of these difficulties, we will create an emergency plan before engaging in telehealth services. I will ask you to identify an emergency contact person who is near your location and who I will contact in the event of a crisis or emergency to assist in addressing the situation. I will ask that you sign a separate authorization form allowing me to contact your emergency contact person as needed during such a crisis or emergency.

If the session is interrupted for any reason, such as technological connection failure, and you are having an emergency, do not call me back; instead, call 9-1-1 or go to your nearest emergency room. Call me back after you have called or obtained emergency services.

If the session is interrupted and you are not having an emergency, disconnect from the session and I will wait two (2) minutes and then re-connect you via the telehealth platform on which we

agreed to conduct treatment. If I do not connect via the telehealth platform within two (2) minutes, then call me at the Family Health office phone number I provided you (937-548-9680).

Fees

The same fee rates will apply for telehealth as apply for in-person appointments. It is important that you contact your insurer to determine if there are applicable co-pays or fees which you are responsible for. Insurance or other managed care providers may not cover sessions that are conducted via telecommunication. If your insurance, HMO, third-party payor, or other managed care provider does not cover electronic therapy sessions, you will be solely responsible for the entire fee of the session. Please contact your insurance company prior to our engaging in telehealth sessions in order to determine whether these appointments will be covered.

If there is a technological failure and we are unable to resume the connection, your provider will code to the specificity of what you were able to complete during the appointment.

Records

The telehealth sessions shall not be recorded in any way unless agreed to in writing by mutual consent. I will maintain a record of our session in the same way I maintain records of in-person sessions in accordance with my policies.

Informed Consent

This agreement is intended as a supplement to the general informed consent that we agreed to at the outset of our treatment together and does not amend any of the terms of that agreement.

Your signature below indicates agreement with its terms and conditions.

PATIENT RIGHTS AND RESPONSIBILITIES

Our purpose is to assist our patients in “...building healthy lives” through integrated and coordinated care. To achieve good health requires your full participation. We cannot give you “good health,” but we can be a valuable partner in this effort. This partnership requires that we both respect this relationship.

You have a right to:

A response to your request for treatment, within the scope of Family Health’s mission, capacity, and protocols. The individuals treating you should be identified by name and their professional status made known to you.

Receive courteous, considerate, and respectful behavior from all staff members.

Request assistance if your vision, hearing, English language skills, or other situations limit your full and informed participation in your care process.

Confidential treatment. You have the right to approve or disapprove the release of any records except when law requires release.

Information regarding your diagnosis, treatment, and prognosis so you can participate in decisions about the intensity and scope of your treatment.

Care that takes into consideration your psychological, social, and cultural values.

Accept or refuse treatment to the extent permitted by law. You also have the right to be informed of the medical consequences of refusing treatment.

Consider ethical issues that arise in your care. You have the right to have your guardian, next of kin, or legally authorized responsible person make decisions for you if you are unable to participate yourself.

Be made aware of advance directives, (Living Will, DNR orders, etc.) and to know how this organization will respond to such advance directives.

You have the responsibility to:

Be prompt for all scheduled appointments.

Cancel an appointment within 24-hours.

Follow the medical treatment plan developed between you and your physician/clinician. If you do not believe you can complete the treatment plan for any reason we ask that you make your concerns known to the clinician caring for you so that other options can be considered.

Be courteous and respectful to all staff and other patients and visitors.

Pay the required fee at time of service. If unable to do so, it is your responsibility to make other financial arrangements with our billing department.

If you feel your rights have been violated or are not pleased with your care at Family Health in any way, please ask to speak with an administrator or call us at 937-548-3806.

Treatment. Your health information may be used by staff members or disclosed to other health care professionals for the purpose of evaluating your health, diagnosing medical conditions, and providing treatment. For example, results of laboratory tests and procedures will be available in your medical record to all health professionals who may provide treatment or who may be consulted by staff members.

Payment. Your health information may be used to seek payment from your health plan, from other sources of coverage such as an automobile insurer, or from credit card companies that you may use to pay for services. For example, your health plan may request and receive information on dates of service, the services provided, and the medical condition being treated.

Health care operations. Your health information may be used as necessary to support the day-to-day activities and management of **Family Health**. For example, information on the services you received may be used to support budgeting and financial reporting and activities to evaluate and promote quality.

Law enforcement. Your health information may be disclosed to law enforcement agencies to support government audits and inspections, to facilitate law-enforcement investigations, and to comply with government-mandated reporting.

Public health reporting. Your health information may be disclosed to public health agencies as required by law. For example, we are required to report certain communicable diseases to the state's public health department.

Other uses and disclosures require your authorization. Disclosure of your health information or its use for any purpose other than those listed above requires your specific written authorization. If you change your mind after authorizing a use or disclosure of your information, you may submit a written retraction of the authorization. However, your decision to revoke the authorization will not affect or undo any use or disclosure of information that occurred before you notified us of your decision to retract your authorization.

Additional Uses of Information

Appointment reminders. Your health information will be used by our staff to send you appointment reminders.

Information about treatments. Your health information may be used to send you information that you may find interesting on the treatment and management of your medical condition. We may also send you information describing other health-related products and services that we believe may interest you.

Fund-raising. Unless you request us not to, we would be able to use your name and address to support any fund-raising efforts we might undertake. If you do not want to participate in fund-raising efforts, please check off the box on the Acknowledge of Receipt form you will sign proving you received this privacy notice.

PATIENT-CENTERED MEDICAL HOME

Family Health Services of Darke County is an accredited Patient-Centered Medical Home (PCMH), which is a system of care in which medical professionals work together as a team to provide all of your health care needs.

It is NOT a building! It is a model of care designed to improve the coordination of your health care with an emphasis on your overall well-being. The goal of our health care team is to provide the best possible outcomes for you.

FAMILY Health

BUILDING HEALTHY LIVES TOGETHER

As our patient, YOU are the center of your care team and the most important part of the Patient-Centered Medical Home team.

When you take an active role in your health and work closely with your care team, you can be sure you are getting the care you need. Your care team involves you in decisions about your health care, which helps you to develop a stronger relationship with them.

The primary goal of the care team is to coordinate and provide the services and care that are right for you. Your care team can include your primary care provider, clinical staff, care managers, behavioral health and wellness, pharmacy, dental, lab, support staff, WIC and front desk personnel. The team also strives to offer support and services to your family as part of the PCMH team, including care coordination activities for specialists.

Core Principles of PCMH:

- Ongoing relationship with your primary care physician and the treatment team that supports your health, such as acute care providers and specialists
- Whole-person perspective and care
- Coordinated and integrated providers and systems
- Centralized quality and safety
- Enhanced access to care

What PCMH Means for You:

- Comprehensive primary care (personal and focused on quality care)
- Electronic medical records and patient portals to communicate and coordinate your care → 
- Actively working to maintain your records and minimizing care gaps through personalized outreach when certain test and/or lab results are not in your chart.

Family Health provides primary care and health education for pediatrics through senior health care, behavioral health and wellness, women's health, dental, eyecare, pharmacy and home health services.

Income Considerations

The sliding fee discount is based on family size and total gross income (including yourself, spouse or significant other, children under 18, and parents, grandparents, and adult children, if applicable).

Gross income is the amount you make before deductions and taxes. This would be your adjusted gross income on your taxes, plus any non-taxed social security, child support, alimony, unemployment, and pension.

If unemployed, come in and fill out a No Proof of Income Form and explain how you are being supported.

Are you one of Ohio's thousands who do not have health insurance?

We understand that it is not always possible for patients to be covered by health insurance.

Family Health Services offers a sliding fee program to assist patients who may not qualify for public benefits and who are not able to afford the full cost of an office visit. Each family unit will be determined eligible by comparing their household family size and income to the Federal Poverty Guidelines, which are updated every year.

We also offer a prompt pay discount for those who do not qualify for the sliding fee or whose insurance does not cover the cost of office visits.

This brochure is meant to help you understand our sliding fee program. We are here to help you and your family build a healthy life!

If you would like Marketplace insurance or Medicaid counseling and application assistance, this free service is available. Call the Certified Application Counselor for more information. **937-547-2330**.

Renewing Your Sliding Fee

It is important to keep your sliding fee information current. Please be sure to:

- Notify us promptly of income changes or family size
- Renew your sliding fee every 12 months

Note: If your sliding fee expires, you will be responsible for the full cost of your visits. Once your paperwork is current, your sliding fee will be reinstated.

Important Information

Family Health Services has a limited amount of funds for this program. We want to assure that the discounts are available to the patients who need them most. Therefore, we request that you:

- Provide ALL of the required information
- Pay your full fee at the time of your doctor visit

We also offer a prompt-pay discount. If payment is made in full at the time of service a 20% discount can be made for Dental and Eyecare office visits or 30% discount for Medical and Behavioral Health office visits. There are a few exceptions. You may choose this option if you do not qualify for the sliding fee discount or if your insurance does not cover the office visit.

Call any front office receptionist for more information on the sliding fee discount.
